

To Whom It May Concern:

I benefit greatly from news and whether found on my XM Radio. Frankly, even if I did not, I pay for this service and I don't think it right to govern these services.

If you want to stick your nose into someone's business in this industry, try the open air radio programs that have little more than smut pouring from them daily. Try controlling that for a change!!!!

What, are the radio stations angry because we have a choice now? This is a harmless and basic right to freedom of speech (in comparison to the thousands of damaging radio programs).

REJECT NAB's petition 04-160!!!!!!

Thank you,
Deidre Ward
